3. Bugs Fixed with this Release

26984   MAPI_E_COLLISION directly after starting of Outlook
         Filter folders with the same name while preferring default folders and don't
         send a delete/create to Outlook but a change.

27238   appointment cannot be deleted from within OX GUI
         made the delete logic a bit more convenient for appointments without
         organizer on delete.

27770   Wrong "Header From:" address in vacation message from an external
         sender
         Don't save all headers in USM in lower-case and keep all received headers
         in the correct order.

27911   USM HTTP 500 errors after Update to 7.2.2
         Fixed possible ArrayIndexOutOfBoundsException when transferring data
         from ByteChunk to a byte array.

27954   wrong translation for folder names on EAS device (only iOS tested so far)
         Removed usage of parameter 'ignoreTranslation'.

28009   All standard folders are displayed English
         Removed usage of parameter 'ignoreTranslation'.

- none -

5. Tests

The OX QA team has verified all bug fixes.

To avoid side effects the packages have gone through automated smoke and regression test on both, the OX Build System and a distributed OX QA server setup.

In addition all bug fixes have been checked for potential side effects or changed behavior. Unless explicitly stated with one of the bug entries above, we do not expect other side effects.

6. Fixed Bugs

26984, 27238, 27770, 27911, 27954, 28009
