1 Shipped Product and Version

Open-Xchange Guard 2.8.0-rev4

Find more information about product versions and releases at http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering and <http://documentation.open-xchange.com/>.

2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 2.8.0.

54084 Encrypted and Signed emails don't access uploaded PGP keys for signature verification

If an email is sent both encrypted and signed, Guard does not use the uploaded PGP keys to verify signatures, rather only references Guard keys.
Now using uploaded keys to verify the signature.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs
