2 Bugs fixed since previous Public Release

This section provides a summary of bugfixes and changes that have been applied subsequently to shipping Patch Release #2841.

42134 Archive Operations not visible instantly

Archive folder was not dropped from cache, hence returning outdated subfolder information. Solution is to properly clean archive folder from cache.

3 Changes relevant for Administrators

3.1 Changes of Configuration Files

Change #2849 Introduced a new capability 'archive_emails' via 'permissions.properties'

Added property "com.openexchange.capability.archive_emails" to file 'permissions.properties', which is set to "true" by default.

3.2 Changes of Command Line Tools

Change #2847 Extended provisioning APIs by the possibility to specify the full-name for the archive folder

Extended provisioning APIs by the possibility to specify the full-name for the archive folder. The existing 'createuser' and 'changeuser' command-line tools were enhanced by the "mail_folder_archive_full_name" option to specify the full-name for the archive folder.

4 Changes relevant for Developers

4.1 Changes of the SOAP API

Change #2848 Extended provisioning APIs by the possibility to specify the full-name for the archive folder

Extended provisioning APIs by the possibility to specify the full-name for the archive folder. The "create" and "change" methods of the "OXUserService" SOAP interface are extended by the "mail_folder_archive_full_name" attribute.

4.2 Changes of the RMI API

Change #2846 Extended provisioning APIs by the possibility to specify the full-name for the archive folder

Extended provisioning APIs by the possibility to specify the full-name for the archive folder. The class "com.openexchange.admin.rmi.dataobjects.User" has therefore been extended by the methods "getMail_folder_archive_full_name()" and "setMail_folder_archive_full_name" in addition to existing mail folder attributes.

5 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

6 Fixed Bugs
