1. Origin Product/Version

Open-Xchange AppSuite backend 7.0.2-rev11

2. Packages shipped with this Patch Release

Open-Xchange AppSuite backend 7.0.2-rev12

3. Bugs fixed with this Patch Release

26153   Parameter denied due to security constraints

Certain parameters within API requests are denied to harden the application against attacks. Being a bit over-protective, this led to false-positives that denied delivery of document previews when matching the requested content type (typically an image) against the content type of the original document. This has been fixed.

5. Tests

The OX QA team has verified all bug fixes.

To avoid side effects the packages have gone through automated smoke and regression test on both, the OX Build System and a distributed OX QA server setup.

In addition all bug fixes have been checked for potential side effects or changed behavior. Unless explicitly stated with one of the bug entries above, we do not expect other side effects.
