Find more information about product versions and releases at `http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering` and `http://documentation.open-xchange.com/`.

2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4174.

54728 After deletion of guard, encrypted emails generate confusing messages
After deleting guard for a user and sending him an encrypted email ” I dont remember receiving a ”initial” password. There is no seperate email I received.” was displayed.
Now new keys will be created without the ”initial” password.

3 Changes relevant for Operators

3.1 Changes of Configuration Files

Change #4290 Add configuration setting to specify the MAIL FROM used in the SMTP Envelope
The following Configuration Setting is added

```
# SMTP Server MAIL FROM
# When sending an email using the guestSMTPServer, Guard
will use the configured email Address
# for the MAIL FROM in the SMTP envelope
# If blank, the senders address will be used
com.openexchange.guard.guestSMTPMailFrom=
```

This address will be used in the SMTP envelope when sending to/from Guest users

4 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.
To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs
