2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4334.

45396 Guard keyserver response to search for existing key with upto 5 times the same key-pair

This was caused by duplicates in resultset.

This has been fixed by removing duplicate entries from the result set.

55553 Failed to open encrypted message in Sent folder

Without guard-drive permission it was not possible to read encrypted mails.

This has been solved by fixing permission issue when guard-drive not enabled. Capability guard-mail was higher than just capability guard, but was not being checked.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

45396, 55553,
