2 Bugs fixed since previous Public Release

This document provides a summary of bugfixes and changes that have been applied subsequently to shipping Patch Release #2111.

33334 protected widgets (on first place) did not get honored while adding a new widget
Don't prepend but append new widgets.

33354 Generic error message when creating a mail folder with special characters without any information howto solve the issue as an enduser
The needed error message was missing.

34041 Autoconfig for (at least) gmail.com broken
Additional elements in XML response were not ignored and caused troubles.

3 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.
