2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 1.3.6-rev1.

59536 overriding of the login in the onboarding wizard is broken

The assumption that `ServerSessionAdapter.getLogin()` would return login information was wrong. It is merely a wrapper around `userId` and `contextId`.

This has been fixed by using `User.getLogin`, `loginrecorder` and `User.getLoginInformation` instead.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

59536,
