2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 1.6.3.

PLG-189 Antiphishing plugin enables mta option when entering settings the first time

Was caused by improper saving of "mta" value.

Solution: Reworked how the "mta" value is saved to the middleware to be consistent with the expected logic. Middleware receives "mta" value as an indicator of whether or not to store the MTA-level antiphishing preference in LDAP or not.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

PLG-189,
