2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 7.10.6.

NCLD-42 Nextcloud file picker does not correctly calculate the total used file size

File Picker displayed available space instead of total space.

This has been fixed by upgrading to File Picker 1.0.3, where the bug is fixed.

NCLD-38 File picker is closed when an error message about the wrong password is displayed

File Picker returns errors only after closing.

This has been fixed by upgrading to a new version of File Picker with the new option closeOnError.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

NCLD-42, NCLD-38,
