2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 7.6.3-rev11.

ONM-1 Optimize contact fetching

No connection pool and possible too many results in the response.

Reduce resultset by adding a filter (not in trash) and use a global connection pool.

ONM-2 increase of threads since update to 7.6.3-52_53

Response may not be closed/consumed.

Always close the response. This closes the low level apache connection, too.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

ONM-1, ONM-2,
