

Release Notes for Patch Release #1842

January 28, 2014

Security Patch Release

This Patch Release addresses critical vulnerabilities; please consider deploying it as soon as possible. Not deploying this Patch Release may result in remote service exploitation, security threats to users and exposure of sensitive data.

Detailed vulnerability descriptions will be publicly disclosed no earlier than five (5) working days after public availability of this Patch Release. There is no indication that one or more of these vulnerabilities are already getting exploited or that information about them is publicly circulating.

1 Shipped Product and Version

Open-Xchange AppSuite backend 7.4.1-rev17

Open-Xchange OX6 backend 7.4.1-rev17

2 Bugs Fixed since previous Public Patch Release

This document provides a summary of bugfixes and changes that have been applied subsequently to shipping Patch Release #1829.

30820 CVE-2014-1679

CVSSv2: 5.7

Researcher credits to joernchen of Phenoelit

3 Tests

The OX QA team has successfully reproduced the reported issues and verified all bug fixes within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All bug fixes have been checked for potential side effects and changed behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs
