

Release Notes for Patch Release #5106
2019-02-11

Security Patch Release

This Patch Release addresses critical vulnerabilities; please consider deploying it as soon as possible. Not deploying this Patch Release may result in remote service exploitation, security threats to users and exposure of sensitive data.

Detailed vulnerability descriptions will be publicly disclosed no earlier than fifteen (15) working days after public availability of this Patch Release. There is no indication that one or more of these vulnerabilities are already getting exploited or that information about them is publicly circulating.

2 Vulnerabilities fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5116. Solutions for vulnerabilities have been provided for the existing code-base via Patch Releases.

61771 CVE-2019-7159

CVSS: 4.1

61315 CVE-2019-7158

CVSS: 4.2

3 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5116.

61884 Date search results displaying results of a search DAY and DAY+1

Parsed date wrong for IMAP results.

Now just one date is used for results. This is just a partial fix. A full solution would be to request a longer timeframe and to do the slicing manually. But this rather requires a larger change to the search module and can not be handled inside a patch.

62452 Spelling issue for Dutch language

Two wrong translations were adjusted to fix this.

62704 Unable to click on Save button in Create new rule window with right click pasting

Pasting a value into an input field triggered no validation and may result in a disabled save button.

4 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs

61884, 62452, 62704, 61771, 61315,
