2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5461.

65958 Poor dutch translation

This has been solved by adjusting translation.

66088 Mail - Compose - Request read receipt flag checked by default

Expect at least a non-empt address string to solve this issue.

66184 Quite a lot long running threads hanging in mail compose via sproxyd

When a concatenated input stream for the chunks of a document is not consumed entirely, and the reference to the next scalability document was already initialized, resources were not released orderly. This has been fixed by ensuring to release underlying stream.

67425 Upper icon bar is missing

Feedback button pushed appsuite out of view when displayed on the left side. This has been fixed by changing css and moved feedback button up again.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

65958, 66088, 66184, 67425,
