2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5982.

MWB-1000 DefaultSenderId not used when compose new mail

From address determined by examining user's primary mail account data.

Solution: Orderly pre-select user's default send address when composing new mails.

MWB-1011 Smtplib login-rejects (wrong password and similar) are not logged at all

Missing log message for failed authentication attempts against primary mail/transport server.

This has been solved by adding logging failed authentication attempts against primary mail/transport server.

MWB-1040 Calendar does not return conflict warning

Iteration of checked event series begins too late.

This has been solved by considering duration when initialize recurrence iterator for conflicting series events in checked period.

3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

MWB-1000, MWB-1011, MWB-1040,
