2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #6010.

OXUIB-897 Error on sharing mail folder SVL-0011

Wrong dirty check caused request that was not needed.

This has been solved by fixing wrong dirty check.

OXUIB-747 Sharing calendar with notification mail for invited user leads to an error

Wrong dirty check caused request that was not needed.

This has been solved by fixing wrong dirty check.

OXUIB-895 Missing "show entire message" button for truncated mails

Class 'mail-detail-content' was added to body element while plain text mails still add a wrapping DIV with that class name beneath the body element.

This has been fixed by adjusting selector to allow adding 'Show entire message' button again.

MWB-1169 Appointment series exceptions are not shown via CalDAV all the time

Userization of delete exception dates not working properly for event series in public folders.

Solution: Don't userize change- and delete exception dates for events in public folders.

OXUIB-901 "Internal Sharing of Files and Folders" does not work with HiDrive but is still offered

This was caused by missing check for 'permissions' of folders 'supported_capabilities' property.

This has been solved by adding missing check.

OXUIB-830 "connect your device" functions missing/changed/inconsistent

Missing QR code support for eas.

This has been solved by adding QR code support and MWB-1179.

MWB-1179 Missing link endpoint for onboarding EAS provisioning

EAS support was missing.

This has been solved by adding EAS support.

3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

OXUIB-897, OXUIB-747, OXUIB-895, MWB-1169, OXUIB-901, OXUIB-830, MWB-1179,
