2   Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #6209.

MWB-2034   Login with 2FA is not working
New multi-factor checks were to restrictive for API endpoints delivering multi-factor UI/Frontend code.
This has been solved by adding "apps/load" to the multi-factor whitelist.

3   Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.
     To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4   Fixed Bugs
