

Release Notes Public Patch Release

#1515 (2013-07-11)

1. Origin Product/Version

OX App Suite 7.2.2-Rev 7

2. Packages shipped with this Release

OX App Suite Frontend 7.2.2-Rev 8 (built 2013-07-11)

OX App Suite Backend 7.2.2-Rev 8 (built 2013-07-11)

3. Bugs Fixed with this Release

Open-Xchange App Suite

- 27047 POA antispam shows errors when service user and primary email address not match
Use user login instead of email address to identify user in POA as this is what POA also does.
- 27172 Default for mail sorting not taken care of by UI
Default sort settings will be used (server setting or 'thread') every time folder is accessed. Only exception: in case default sort is 'thread' and thread view is disabled for the current folder '610' (date) is used instead.
- 27241 Display of Facebook stream will stop working on 2013/07/10
Please see:
http://oxpedia.org/wiki/index.php?title=FacebookMessaging_Bundle#Facebook_after_the_.22July_2013_Breaking_Changes.22
- 27258 missing password migration UI for external accounts
Added this function to App Suite UI.
- 27316 getaccesscombinationnameforuser does always return null
The "EditPassword" capability is threatened as extended property that is bound to the presence of a specific service. That's why the user module access combinations may differ from those stored in the database when being queried by the Admin.
com.openexchange.admin.storage.interfaces.OXUserStorageInterface.getModuleAccess() will always return access combinations without the influence of extended properties that depend on started services for example.
- 27337 Customer name in exception
Fixed wrong string.
- 27356 Color label disappears after refresh
Fixed by adding column 102 (color_flag) to "getAll" request.
- 27438 showruntimestats -j shows java.lang.IllegalStateException
The "-j" / "-jsonStats" option is removed from the "showruntimestats" utility, and implicitly from the "-a" option, too.
- 27455 Order of emoji icons within categories are wrong
Fixed broken icon order.
- 27456 Some Japanese translations are missing
Entered the translations provided by the customer.
- 27466 Emoji icons are too narrow

Added a margin of 2px in CSS files.

4. Changes applied

4.1. Changes relevant for Administrators

4.1.1. Changes of Configuration Files

- none -

4.1.2. Changes of Database Schemes

- none -

4.1.3. Changes of Behavior

- none -

4.2.5. Changes of the WebDAV API

- none -

4.2.6. Changes of the GUI-API

- none -

5. Tests

The OX QA team has verified all bug fixes.

To avoid side effects the packages have gone through automated smoke and regression test on both, the OX Build System and a distributed OX QA server setup.

In addition all bug fixes have been checked for potential side effects or changed behavior. Unless explicitly stated with one of the bug entries above, we do not expect other side effects.

6. Fixed Bugs

27047, 27172, 27241, 27258, 27316, 27337, 27356, 27438, 27455, 27456, 27466
