2 General information

OX Documents consists apps such as OX Text, a word processor, OX Spreadsheet and OX Documents Viewer. OX Documents is an integral part of OX App Suite.

The collection of office orientated apps has been refreshed with an improved responsive UI as well as editing and performance enhancements. The new horizontal layout improves usability across all platforms, including tablets and smartphones. This is achieved with an easy-to-navigate tab panel, responsive toolbars, a list of all document collaborators and a new look for the AutoSave feature.

Added features to OX Documents include:

- Change tracking in OX Text
- Full interoperability with Microsoft Office change tracking
- Improved clipboard support from MS Word into OX Text
- OX Text Draft Mode for smartphones allowing for easy reading and editing on small screen devices
- Enhanced usability on tablet and smartphone
- New tabbed horizontal user interface
- Automatic zoom/screen fit defaults for different document types

Open-Xchange encourages administrators to update regularly to the latest available release. In order to ensure a stable and up to date environment please note the different supported versions. An overview of the latest supported Major, Minor and Public Patch Releases can be found in the Knowledgebase at:

3 Bugs fixed with this Release

This document provides a summary of bugfixes and changes that have been applied subsequently to shipping Release 7.6.0-9. Some of the announced bugfixes may have already been fixed at the existing code-base via Patch Releases.

34078 Deleted Files are still shown in "recent documents"

The "Recent Documents" lists in the Text and Spreadsheet components contained files that have been deleted. These entries are now removed during preparation of the list.

4 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.
