## 2 General information

Open-Xchange eM Client for OX App Suite is a full-featured email client with a modern and easy-to-use interface for Windows users. In addition to user friendly email functionality, this application offers several integrated features: a calendar, tasks and contacts. Additionally, eM Client for OX App Suite can be used offline with full OX App Suite synchronization.

This new addition to OX App Suite uses open and proven industry standard protocols such as IMAP, SMTP, and CardDAV/CalDAV for secure and hassle free connection to OX App Suite.

The application stores data locally on the client machine. This guarantees that end users can access their data even when offline. Any changes made in offline mode are automatically synchronized: when the user is online again, they are sent back to the OX App Suite server.
