Find more information about product versions and releases at http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering and <http://documentation.open-xchange.com/>.

2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5041.

62258 ics file can't be imported from attachment if mail was encrypted

Added support for importing encrypted ical files

62575 Second and Consecutive Messages to External User not Localized

The selected language wasn't being saved to the database, rather just the default. This fixes the issue, and the database will be corrected the next time the Guest logs into the UI.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

62258, 62575,
