2 Bugs fixed with this Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 2.1.0. Some of the announced bug fixes may have already been fixed at the existing code-base via Patch Releases.

OMF-620 Orchestrator crashes on startup with "No bean of type [java.util.function.Supplier] exists"

Fix an Orchestrator startup crash.

Status: Fixed

Root Cause Description:

Caused by the dependency on Supplier<Clock> which doesn't have a factory.

Solution Description:

Implement ClockSupplier and a factory bean for it.

Severity: 1

Components: Orchestrator

Source Directory: cli

shared

3 Changes relevant for Operators

3.1 Changes of Behavior

Change #OMF-621 Add target blacklist management commands

Status: Done

Resolution: Done

Components: Orchestrator

Source Directory: cli

run-cli.sh

run-shell

shared

4 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs

OMF-620,
