2 Bugs fixed with this Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 2.1.0-rev23. Some of the announced bug fixes may have already been fixed at the existing code-base via Patch Releases.

OMF-831 Orchestrator: Negative number of contexts active in window list

Status: Done

Root Cause Description:

The contexts to deactivate when a batch is finished were counted twice.

Solution Description:

Correct the algorithm that calculates the updated to apply to window context statistics. When a window is finished, the context statistics are calculated from the batch records in the database.

Resolution: Verified

Severity: 3

Components: Orchestrator

Verified with Builds: develop

Affected Packages: open-xchange-omf-scheduler

3 Changes relevant for Operators

3.1 Changes of Behavior

Change #OMF-642 Log to JSON

Status: Done

Resolution: Done

Components: Scheduler

Labels: logging

Affected Packages: open-xchange-omf-scheduler

Change #OMF-735 Orchestrator and Scheduler make inefficient calls when creating a window

Status: Done

Resolution: Done

Components: Orchestrator, Scheduler, Source

Affected Packages: open-xchange-omf-scheduler

Change #OMF-785 Automatically stop window execution if error rate is over a certain threshold

Status: Done

Resolution: Done

Affected Packages: open-xchange-omf-scheduler

Change #OMF-786 New metrics about migration throughput

Status: Done

Resolution: Done
Affected Packages: open-xchange-omf-scheduler

Change #OMF-818 Multi-Tenant Scheduler

Status: Done
Resolution: Done
Components: Scheduler
Affected Packages: open-xchange-omf-scheduler

Change #OMF-832 Add metric for Batch Response processing errors

Status: Done
Resolution: Done
Components: Scheduler
Affected Packages: open-xchange-omf-scheduler

Change #OMF-833 Window Processing Live Feed

Status: Done
Resolution: Done
Components: Orchestrator, Scheduler
Affected Packages: open-xchange-omf-scheduler

Change #OMF-835 Scheduler Metrics for Batch Polling and Batch Response Processing

Status: Done
Resolution: Done
Components: Scheduler
Affected Packages: open-xchange-omf-scheduler

4 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs

OMF-831,
