## 2 Bugs fixed with this Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 2.1.0-rev23. Some of the announced bug fixes may have already been fixed at the existing code-base via Patch Releases.

### **OMF-729 Mail filter folder name conversion does not work when delimiters match**

[omf-source MR] [https://gitlab.open-xchange.com/engineering-services/omf/omf-source/-/merge\\_requests/57](https://gitlab.open-xchange.com/engineering-services/omf/omf-source/-/merge_requests/57)

Status: Fixed

Root Cause Description:

Matching mail filter folder delimiters caused the folder mapping logic to be skipped.

Solution Description:

Only skip folder mapping if there are no folders to map.

Severity: 3

Components: Source

Affected Packages: open-xchange-omf-source-mailfilter

## 3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs

OMF-729,
