2 Bugs fixed with this Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 2.1.0. Some of the announced bug fixes may have already been fixed at the existing code-base via Patch Releases.

OMF-581 Primary email is not always included in aliases

Primary email address will be added to the user aliases during metadata generation, if it does not exist.

Status: Fixed

Root Cause Description:

User primary mail address is not added to the list of aliases.

Solution Description:

Add the primary mail address to the list of aliases.

Severity: 3

Components: Source

Affected Packages: open-xchange-omf-source

3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs
