Components: Worker General

Labels: Cloud-Plugins OXaaS estimate-later needs-research phase2 preSync

Affected Packages: open-xchange-omf-worker

Change #OMF-637 Target APIs to check for the existence of contexts and users in the database and LDAP

Status: Done

Resolution: Done

Components: Orchestrator, Scheduler, Target

Affected Packages: open-xchange-omf-target

4 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs
