1 Shipped Product and Version

Open-Xchange OX6 frontend 6.22.9-rev13

2 Bugs fixed since previous Public Release

This document provides a summary of bugfixes and changes that have been applied subsequently to shipping Release 6.22.9.

37229 ReferenceError when loading upsell plugins

Certain configurations led to frontend issues when invoking the “upsell-multiple-gui” addon. Ultimately, this leads to customers not being able to use the OX6 frontend. This has been solved.

3 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

37229,
