2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4515.

56034 OAuth not working if ending on other node
JVM route information not added to redirecting call-back URL.
Ensure JVM route is added to redirecting call-back URL to solve this issue.

56536 Send contact as vcard keeps loading with circle logo
Loading the Source of vcard failed.
This has been fixed by adjusting the request.

56597 Report -o not working
Fixed parameter indices to make report working again.

3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.
To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

56034, 56536, 56597,
