

# Release Notes

## Public Patch Release 1257 (2012-12-28)

### 1. Origin Product/Version

Open-Xchange Server 6 6.22.1-rev8

### 2. Packages shipped with this Patch Release

Open-Xchange Server 6 6.22.1-rev10

### 3. Bugs fixed with this Patch Release

24168 PIM users cannot change their personal data

Due to privacy concerns, detailed user data is not delivered to users within a context if the global address book is disabled. However, this did also apply for the currently logged in users in respect to its own detailed data. This led to issues when trying to change own data, for example at the wizard. The currently logged in user now gets full access to all its own user data.

#### Changes of Configuration Files

- none -

#### Changes of Database Schemes

- none -

#### Changes of Command Line Tools

- none -

#### Changes of Behavior

- none -

#### Changes of Packaging

- none -

- none -

## 5. Tests

The OX QA team has verified all bug fixes.

To avoid side effects the packages have gone through automated smoke and regression test on both, the OX Build System and a distributed OX QA server setup.

In addition all bug fixes have been checked for potential side effects or changed behavior. Unless explicitly stated with one of the bug entries above, we do not expect other side effects.

## 6. Fixed bugs
