## 2 Bugs fixed since previous Public Release

This section provides a summary of bugfixes and changes that have been applied subsequently to shipping Release 7.8.1.

### **45843 Updater doesn't work for OX Drive 2.0.0**

It was the intention to bring the OXDrive update only via Appsuite UI.

OX Drive switch was removed again, OX Updater will now show updates for OX Drive <= 2.2.0.

## 3 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.
