

## Release Notes for Public PTF (2010-08-12)

### 1. Origin Product/Version

OXHE v6.16.1 Rev 8 (Public PTF)

### 2. Packages shipped with this PTF Release

OXHE v6.16.1 Rev 11 (built 2010-08-11)

### 3. Bugs fixed with this PTF Release

- 16295 Changed DefaultSenderAddress isn't used within notification mails' VCALENDAR file  
The fix uses the same configuration option introduced by fix for bug 15300. If 'defaultSenderAddress' is configured, the setting of the user for the default sender address is used for the email address within the ATTENDEE attribute and within the ORGANIZER attribute of the VEVENT in the iCal file.  
No potential side effects.
- 16087 Emails marked "read" automatically  
Keeping mails as unseen now works when passing the save parameter as true on mail get request.  
No potential side effects.
- 16663 contacts-ldap does not query ad for creation date but complains it is not there  
The contacts bundle relies on the creation date to be sent by the ldap server but actually did not query for it.  
No potential side effects.
- 16628 Contacts with Birthday date "1970-01-01" can not be synced with WinMobile  
Adjusting the internal data type for birthdays.  
No potential side effects.

## 4. Changes relevant for Administrator

### Changes of configuration files

- none -

### Changes of database schemes

- none -

### Changes of command line tools schemes

- none -

## 5. Changes relevant for Developers
