2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #6165.

PLG-376 address book empty in address picker

Stale references in group contact folder mappings not handled gently, missing broadcast to cluster for certain group provisioning events.

Broadcast invalidation after provisioning events, handle stale references in contact group folder mappings.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

PLG-376,
