1 Shipped Product and Version

Open-Xchange Cloud Plugins 1.10.0-rev3

Find more information about product versions and releases at http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering and <http://documentation.open-xchange.com/>.

2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 1.10.0-rev2.

CP-230 Provide Nginx Servlet Auth Password Lookup Without Config Cascade

Master Password configuration is read on a config-cascade view, which causes DB access. Offer configuration file only lookup for Master Password configuration, which is enabled by default. The config-cascade version can be enabled with a hidden property `com.openexchange.cloudplugins.nginx.auth.servlet.lean.masterpw`

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

CP-230,
