1 Shipped Product and Version

Open-Xchange Cloud Plugins 1.10.0-rev6

Find more information about product versions and releases at http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering and <http://documentation.open-xchange.com/>.

2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5736.

CP-228 Update cloud-plugins LDAP to support "oxDeliveryStatus" attribute used for migration status

Add oxDeliveryStatus attribute support in cloud-plugins so that it can be accessed at the driver level. Authentication customizations should have access to the flag in order to determine migration status. Also extend the REST API to include verbs to get and set the oxDeliveryStatus attribute and update the rest-api documentation accordingly.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression testing on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

CP-228,
