## 2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4670.

### 58322 Typo at S3 storage configuration

A recently introduced typo at a configuration parameter was solved that led to issues connecting to S3 storage backends. To avoid configuration changes and unexpected issues, please deploy this Patch Release if S3 storage backends are used. This addresses SDB article #394.

## 3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs
