

Release Notes for Patch Release #5232
2019-05-13

Security Patch Release

This Patch Release addresses critical vulnerabilities; please consider deploying it as soon as possible. Not deploying this Patch Release may result in remote service exploitation, security threats to users and exposure of sensitive data.

Detailed vulnerability descriptions will be publicly disclosed no earlier than fifteen (15) working days after public availability of this Patch Release. There is no indication that one or more of these vulnerabilities are already getting exploited or that information about them is publicly circulating.

2 Vulnerabilities fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5166. Solutions for vulnerabilities have been provided for the existing code-base via Patch Releases.

62465 CVE-2019-11806
CVSS: 3.3

3 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5166.

63240 Cannot open newsletters with new google chrome 72

Links opened by blankshield are blocked due to security reasons.

Solution: Open links with rel="noopener" directly in chrome 72 and above. Note that this is just an intermediate fix and will be replaced as soon as the issue is fixed in blankshield.

4 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs
