CVSS: 3.3

64682   CVE-2019-11522
CVSS: 5.4

3   Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5210.

64337   Broken address book layout
Race condition during app start. The app was initialized and resumed at the same time.
Do not resume apps that are currently starting anyway to solve this issue.

64722   With categories, Drag and Drop from one tab to another doesn't update unread count
This has been solved by fixing broken collection invalidation.

4   Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.
To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.
