## 2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5395.

### **65682 Replies to appointments always in English on OUTLOOK and not in current language**

If the organiser is no attendee (Outlook), the locale for the notification recipient was not set. This has been fixed by adding the acting users locale in this case.

### **66064 Change Google selection UI appearance to conform with their branding guidelines**

Adjusted appearance like described in ""Google" Text" in the branding guideline.

## 3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs

65682, 66064,
