## 2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5944.

### **MWB-903 One user can create stack traces to JE >36.000 lines**

Equal exceptions chained multiple times.

This has been solved by avoiding chaining equal exceptions multiple times.

### **MWB-891 An error occurred: HTTP/1.1 423 Locked**

Possible concurrent modification of storage objects is quitted with "HTTP/1.1 423 Locked" status response leading to abortion of request processing.

This has been fixed by introducing retry mechanism with exponential back-off in case Sproxyd service quits request with "HTTP/1.1 423 Locked".

### **OXUIB-609 "Remove photo" button greyed out after image resolution is too high**

Buttons were not enabled after dialog gets idle.

This has been solved by setting dialog to idle also when cropped image can't be loaded.

### **OXUIB-677 Mail folder not visible after creation**

Event listeners were still listening on an old collection.

This has been fixed by adjusting event listeners after folder rename.

### **MWB-868 Dataexport fails with "No such file or directory" error message**

Intermediate clean-up task unexpectedly dropped file storage resources.

This has been solved by not running clean-up task when there are currently running data export tasks.

### **MWB-924 Wrong encoding in plain-text sharing-mail-body using umlauts in display name**

Sender's full name for introduction in drive mail notifications escaped twice.

This has been fixed by escaping sender's full name for introduction in drive mail notifications only once.

## 3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs

MWB-903, MWB-891, OXUIB-609, OXUIB-677, MWB-868, MWB-924,
