

**Release Notes for Patch Release #6219**  
2023-03-20

**Security Patch Release**

This Patch Release addresses critical vulnerabilities; please consider deploying it as soon as possible. Not deploying this Patch Release may result in remote service exploitation, security threats to users and exposure of sensitive data.

Detailed vulnerability descriptions will be publicly disclosed no earlier than fifteen (15) working days after public availability of this Patch Release. There is no indication that one or more of these vulnerabilities are already getting exploited or that information about them is publicly circulating.

## 2 Vulnerabilities fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #6223. Solutions for vulnerabilities have been provided for the existing code-base via Patch Releases.

**MWB-2019 CVE-2023-26429**  
CVSS:3.5

**MWB-2008 CVE-2023-26428**  
CVSS:6.5

**MWB-2046 CVE-2023-26432**  
CVSS:4.3

**MWB-2048 CVE-2023-26434**  
CVSS:4.3

**MWB-2047 CVE-2023-26433**  
CVSS:4.3

**DOCS-4662 CVE-2023-26435**  
CVSS:5

**MWB-1994 CVE-2023-26427**  
CVSS:3.2

**DOCS-4701 CVE-2023-26436**  
CVSS:8.3

**MWB-2038 CVE-2023-26431**  
CVSS:5

## 3 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #6223.

### **OXUIB-2157 Email body not fully shown sometimes**

Height calculation was too early and missed margin/padding etc.

This has been fixed by triggering height calculation a second time, slightly later so that the css is applied correctly.

**OXUIB-2126 Sorting by folder name in Drive not working in public files**

Missing sorting by folder name.

This has been solved by adding sorting on client side.

**MWB-2052 Oxsysreport: Add missing option for excluding specific log files**

Missing option to exclude specific log files.

This has been solved by adding a new optional parameter for excluding specific log files. `/opt/open-xchange/sbin/oxsysreport --exclude-logs-filter '/oxnotifyd.log\|/auth.log'`

**MWB-1967 Public folders will displayed as "public folders" instead with their names**

i18n name set for multiple public IMAP namespace.

Don't set i18n name for public IMAP namespace if there are multiple ones configured to solve this issue.

**MWB-2051 Oxsysreport: Missing logfiles from /var/log/open-xchange once -ox-log-dir was given with another logfile location**

Unexpected hard coded log location for osci and console log.

This has been fixed by always including default log location /var/log/open-xchange.

**MWB-2030 Guard Page Refresh for Guests on SSO Systems**

Missing Set-Cookie directive when resolving share link under certain circumstances.

This has been solved by orderly setting session- and share-cookie when resolving share link.

## 4 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

## 5 Fixed Bugs

OXUIB-2157, OXUIB-2126, MWB-2052, MWB-1967, MWB-2051, MWB-2030, MWB-2019, MWB-2008, MWB-2046, MWB-2048, MWB-2047, DOCS-4662, MWB-1994, DOCS-4701, MWB-2038,
