2 Bugs fixed since previous Public Release

This section provides a summary of bugfixes and changes that have been applied subsequently to shipping Patch Release #2569.

39721 Save As button is greyed for Text and Drive

When manually saving a document the 'Save' button remains grey, to make it active you have to select another directory first.

With the fix the 'Save as' button is always enabled without changing the directory selection.

39726 OX Documents setting panel shows Text in English when using other language

Some entries in 'Settings' are always shown in English.

All setting options are shown in the selected UI language.

39731 Personal template folder is inactive

Templates in a personal template folder are not shown in the Documents Apps 'Text' and 'Spreadsheet'.

With the fix templates saved in a template folder selected in the settings are shown in the Document Apps.

3 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

39721, 39726, 39731,
