2 Bugs fixed with this Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 1.0.0. Some of the announced bug fixes may have already been fixed at the existing code-base via Patch Releases.

DMF-109 Stop Worker does not stop jobs or return connections
Status: Fixed
Root Cause Description:

Hikari JDBC pool closes before all jobs can be aborted.

Solution Description:

Don't close the application context until all jobs have been aborted.

Severity: 3
Components: Worker
Affected Packages: open-xchange-dmf-worker

DMF-110 Worker finds false positive errors
Status: Fixed
Root Cause Description:

Error pattern (regex) used by the log analyzer is looking for the string "error" in log entries.

Solution Description:

Modified the error pattern to make the log analyzer look for a dsync error. Example: _dsync(xxxx): Error: ..._

Severity: 3
Components: Worker
Affected Packages: open-xchange-dmf-worker

3 Changes relevant for Operators

3.1 Changes of Behavior

Change #DMF-107 Display list of sources in backends API
Status: Done
Resolution: Fixed
Components: Scheduler, Worker
Affected Packages: open-xchange-dmf-worker

Change #DMF-114 Make doveadm retry with debug configurable
Status: Done
Resolution: Done
Components: Worker
Affected Packages: open-xchange-dmf-worker

4 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.
To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs

DMF-109, DMF-110,
