## 1 Shipped Product and Version

Open-Xchange Guard 2.8.0-rev16

Find more information about product versions and releases at [http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning\\_and\\_Numbering](http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering) and <http://documentation.open-xchange.com/>.

## 2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4610.

### **56390 'show external images' does not work for encrypted mails**

After clicking 'show external images' with an encrypted mail, the images were not displayed. This has been solved by sending decrypt flag if needed when pulling unmodified email and adding an extension for show external images. This fix need also the newest public Patch for 7.8.4 to work (Patch #4670).

## 3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs

56390,
