2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5113.

62575 Second and Consecutive Messages to External User not Localized

During the login process, Guard checking if the language selection in the Guard key table was different from the language selection of the UI, and if different, then updating. This allows Guests, to change their language and have it updated for new Guest emails. But null wasn't being handled. This has been fixed by also handling NULL and invalid values for languages.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

62575,
