## 1 Shipped Product and Version

Open-Xchange Guard 2.10.2-rev4

Find more information about product versions and releases at [http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning\\_and\\_Numbering](http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering) and <http://documentation.open-xchange.com/>.

## 2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 2.10.2.

### **65258 Reset of Guest Guard password reports unavailable**

OX userid/contextid was being passed rather than the Guard userid/context, which for guests, is different.

Now it is possible to reset the guard pw for guests. But it is not possible for all guests using gmail.com accounts, this will be fixed with the upcoming guard patch.

## 3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs

65258,
