## 1 Shipped Product and Version

Open-Xchange Guard 2.10.2-rev7

Find more information about product versions and releases at [http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning\\_and\\_Numbering](http://oxpedia.org/wiki/index.php?title=AppSuite:Versioning_and_Numbering) and <http://documentation.open-xchange.com/>.

## 2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5434.

### **67566 Reply pgp mail closes mail compose**

Guard recognizes email as PGP encrypted, and wants authentication to decrypt to generate the proper reply. Guard was not checking properly for Guard capability.

Now mail compose is not closed when replying to a pgp mail with Guard is not enabled for the user.

## 3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

## 4 Fixed Bugs
