2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #5616.

GUARD-187 No file dialog on Firefox 73.0 when trying to "Add and encrypt local file" to drive

When using Firefox 73 and saving a local file to drive as encrypted the file dialog box was not launched to select the file.

This has been solved by changing the matches (permission check) to use direct calls only.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

GUARD-187,
