2 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #6141.

OMFACADE-682   Mobile-api-facade unable to load modules
This was caused by missing references after changes to HTTP client handling in the core middleware. This has been fixed by adding additional imports.

3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.
    To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

OMFACADE-682,
