## 2 Bugs fixed with this Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Release 1.12.0. Some of the announced bug fixes may have already been fixed at the existing code-base via Patch Releases.

### **OMFACADE-676 open-xchange-mobile-api-facade does not start after update**

A missing file was added by rebuilding against the latest Open-Xchange App Suite backend 7.10.5 patch release.

## 3 Tests

Open-Xchange has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.
