OMF-658   TargetFileMigrationActivator does not fetch the DatabaseService
Status: Fixed
Root Cause Description:

> Missing getServiceSafe.

Solution Description:

> Added Service to the start of the bundle.

Severity: 2
Components: Target
Affected Packages: open-xchange-omf-target

3 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.
To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

OMF-657, OMF-658,
